Atten: Mr. M. C. Frost, President

Gentlemen:

Schaible Patent No. 2,278,566

This is in reply to your letter of April 22 pertaining to the above. On the basis of Mr. Desmond's report it is suggested that you so advise our Purchasing Dept. and, at the same time, accompany such information by patent indemnity statement in which you agree to hold Crane and its customers free from any liability arising from patent infringement.

I might add that, since our last conference here, I have reviewed the matter of infringement on our patent No. 2,271,827 further with our interested executives, and they conclude that the rate suggested in my letter of March 8, 1948 on your No. 272 waste is reasonable and should be acceptable to you.

If this appears satisfactory, we shall be glad to prepare a license agreement accordingly.

Yours very truly,

CRANE CO.

J. O. Lange
Engineer of Patents
